

Kilmington Play Park Remains Closed

Kilmington Parish Council have discussed at length if the play park area should be reopened.

In addition to the CV19 safety issues, we have just received our regular equipment safety report from RoSPA which has highlighted a number of safety related issues that require attention.

We have therefore decided that repairs should be completed before reopening. Quotes for the work are now being obtained.

Unfortunately therefore, the play park will not be opened in the near future.

This decision is based on our duty to ensure maximum safety for the children using the equipment.
